

Laura Gonzalez PhD, APRN, CNE, CHSE-A, ANEF, FAAN

Dr. Laura Gonzalez, PhD, APRN, CNE, CHSE-A, ANEF, FAAN, is Vice President of Innovation at Sentinel U® and Past President of INACSL. An internationally recognized leader in healthcare simulation, she holds the CHSE-A credential, an advanced certification in simulation education. In 2020, she was inducted as a Fellow of the American Academy of Nursing and is also a Fellow of the Academy of Nurse Educators. Her scholarship focuses on advancing nursing education through simulation and its impact on learner outcomes. She has authored more than 22 peer-reviewed, data-based publications, author of clinical skills textbook, editor of chapter on AI in Simulation and holds two patents related to sterile field detection and virtual patients. Her current work emphasizes the use of generative artificial intelligence to strengthen teaching and learning in nursing education.
